So you're engaged...

Congratulations

Very excited for you! Also very excited that you are interested in having me capture your special day.

Enclosed is all the information you need to know about my services and to make this business arrangement official!

details

- My style is very candid and organic. I love capturing you exactly how you are! Poses are fluid and my editing process is very natural.
- I am a single shooter but always come with an assistant. If you would like a second shooter, please arrange this with me ahead of time.
- Payment is made in two instalments. The first is the non-refundable deposit of half of your total that is made to reserve your date. The other half is paid on the day of your wedding. Cash is preferred, but etransfers work!
- Your photos will be a mixture of black and white and colour. If this is an issue, please be clear ahead of time.
- Your photos will be retouched (for things like skin and blowing hair) and lighting will be enhanced. Please discuss any further editing/heavier photoshopping you may need.
- Photos require diligent editing and since there is no maximum of your edited images, it is a lot of work. Please be patient and allow more than 8 weeks before you message, and unless there is a technical error, photos will not be reedited.
- You will receive one USB with your edited images on it. Your photos will be stored for two years as back up. There will be a charge for additional USB's so be careful with your first and do not lose it after two years!!
- When the photos are done, you are welcome to print and share. Please credit HD Imagery when on social media and ask before using for promotions, sales, or marketing.
